

Asbestos Analysts Registry (AAR) Registered Organizations

Updated September 11, 2019

To verify the current Registration status and proficiency performance, please contact the organization in question to view their most recent AAT Performance Results Report. Approval and Registration by the AIHA Registry Programs® is not a guarantee of the validity of the data generated by an organization. Ensure that the organization has the required state and local licensure, prior to performing work. AAR Registration and inclusion on this document does not convey that the organization or its affiliated analyst(s) are licensed or certified in the indicate state or any jurisdiction.

This web list is, at a minimum, updated quarterly after each AAT round is processed. If you have any questions regarding or find any errors with this listing, please contact the AAR Program Specialist, Carter Dezio, at (703) 846-0755 or cdezio@aiha.org.
